

Our Villa in Palm Jumeirah

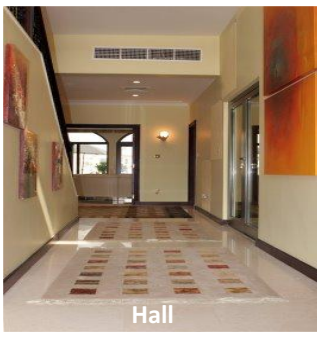

5 Bedrooms

5 Bedrooms Luxury Villa, with stunning views from the villa across the Palm Jumeirah. Both the lounge and dining rooms open onto the garden and pool - and then the beach! - giving this villa one of the most impressive views of any holiday home in Dubai.

This villa is staffed by a driver/houseboy who can drop you at local amenities and has a private pool and private beach access. With astonishing views directly over the water, unique works of art, lounge access directly to the pool and grand entrance foyers, This Villa is truly a vacation home you can relax in.

The lounge and dining rooms are both decorated in antique cream stucco, giving amazing effects as the sun reflects off it in the morning. A patio door leads directly to the terrace breakfast area, and the dining table is illuminated with a brilliant shell globe, complimented by dinosaur egg lights, mood cove lighting and corner lattice floor lamp. The lounge, dining room, kitchen and master bedroom are all linked to the own opus music system, which also has speakers on the breakfast terrace.

Kid's Room

Entertainment

Breakfast View

The entertainment room has 2 portable PCs, DVD player, PS3 and 50" TV. And if that's not enough to entertain the kids, then the pool is at a constant 30 degrees throughout the year - chilled in the summer and heated in the 'winter'! The villa also has a kayak for those that want to get some exercise while on holiday.
